WAQUAR IMDAD

SENIOR BACKEND ENGINEER | JAVA, MICROSERVICES & DISTRIBUTED SYSTEMS

Hyderabad, India | +91 8630174609 | info.wimdad@gmail.com | linkedin.com/in/waquar-imdad-619b9b62

PROFESSIONAL SUMMARY

Backend Engineer with 6+ years architecting and owning distributed microservices in Java and Go, including end-to-end ownership from design through production deployment and monitoring. Experienced designing REST and event-driven Kafka pipelines, modeling PostgreSQL and MongoDB data stores, deploying containerized services on Docker and Kubernetes on AWS, and integrating LLM-powered capabilities into backend services using Spring AI. Regularly mentors junior engineers on code quality, secure development, and testing practices, and collaborates closely with Product, DevOps, and Frontend teams to align on technical direction.

CORE TECHNICAL SKILLS

Languages & Frameworks: Java (J2EE), Go, Spring Boot, Spring Cloud, Spring AI

Architecture: Microservices, Distributed Systems, REST APIs, GraphQL, gRPC, SOAP, Event-Driven Architecture

Data & Messaging: PostgreSQL, MySQL, Oracle, MongoDB, Cassandra, Apache Kafka

Cloud & DevOps: AWS, Docker, Kubernetes, Jenkins, CI/CD Pipelines, Git

AI/LLM Integration: Spring AI, LLM-based service orchestration, prompt-driven backend workflows

Practices: Code Review, Team Mentoring, Secure Software Development, Unit & Automated Testing, Production Troubleshooting

PROFESSIONAL EXPERIENCE

Infosys | Hyderabad, India

Senior Associate Consultant / Software Engineer *May 2024 – Jul 2026*

- Own architecture and end-to-end delivery of backend microservices in Java and Go for the BNSF Railway platform, from requirement gathering through production deployment and monitoring, building REST and GraphQL-based services.
- Integrated Spring AI into backend microservices to add LLM-powered capabilities, including natural-language query handling and AI-assisted automation, wiring model calls into existing Spring Boot services.
- Design distributed services for high availability and reliability, orchestrating containerized deployments with Docker and Kubernetes on AWS to keep systems stable under production load.
- Model and optimize relational (PostgreSQL) and NoSQL (MongoDB) data stores, applying schema design and performance-tuning practices to sustain data integrity for high-throughput services.
- Architect event-driven data pipelines with Apache Kafka for real-time streaming across distributed microservices, partnering with frontend teams and product managers to ship production-ready solutions.
- Drive code quality and engineering standards across the team through Git-based version control, secure development practices, and CI/CD pipelines, while mentoring engineers on testing and best practices.

ePayLater | Gurgaon, India

Senior SDE *Apr 2022 – Nov 2023*

- Built and maintained backend services in Java for a lending platform using microservices architecture, improving scalability, performance, and reliability under growing transaction volume.
- Integrated the BNPL (Buy Now Pay Later) platform with major e-commerce platforms and banks via well-tested REST APIs, expanding market reach and partner integrations.
- Designed a risk-assessment system using custom data structures and algorithmic techniques to evaluate applicant creditworthiness, improving approval accuracy.
- Led and mentored junior engineers on testing practices, secure coding, and modern development workflows, using Docker and Git for containerized deployment and version control in a remote-friendly team.

Drucare Pvt. Ltd. | Hyderabad, India

Java Developer *Jul 2020 – Apr 2022*

- Owned end-to-end delivery and production support of technology-based healthcare solutions from design through deployment.
- Designed and implemented REST and XML-based SOAP web services to support complex, reliable data exchanges between distributed systems.
- Leveraged AWS for cloud-based development and PostgreSQL for efficient database design and management.
- Identified process gaps in a fast-paced start-up environment and implemented durable solutions, communicating clearly across engineering and business teams.

EDUCATION

Galgotias University 2015 – 2019

Bachelor of Technology (B.Tech), Computer Science

LANGUAGES

English, Hindi
